### Dimensions of the Projection Screen

- **Inline 160 casing**
- fabric
- length of bottom bar = fabric width +27mm
- casing length = fabric width +93 mm
- hole center distance = fabric width +141mm
- length with mounting brackets = fabric width +173 mm
- overall length = fabric width +193mm
- overall length: +/- 2mm

### All projection screens in system Inline are available as projection screens for ceiling integration.

The clips-brackets on either sides of the screen are stackable to allow convenient access to the screws for mounting and servicing.

Mounting and Dismounting of the projection screen can be done without additional access.

### RECESS FOR SUSPENDED CEILING

In case of subsequent mounting of the projection screen into a suspended ceiling, a recess according to the sketch below has to be made.

### BIZ-MSAD/160

**Inline Mounting Set for Suspended Ceiling**

The Mounting Set - the perfect supplement for projection screens for suspended ceilings. Thread rods (100cm) enable a continuously adjustment to the ceiling level.
