- Overall length 180 mm
- Projection side 220 mm
- Overall length 180 mm
- Thread length 100 mm
- Thread rod (100 cm)

Recess for suspended ceiling:
In case of subsequent mounting of the projection screen into a suspended ceiling, a recess according to the sketch has to be made.

BIZ-MSAD/160
Inline Mounting Set for Suspended Ceiling

The Mounting Set - the perfect supplement for projection screens for suspended ceilings. Thread rods (100 cm) enable a continuously adjustment to the ceiling level.

All projection screens in system Inline are available as projection screens for ceiling integration. The clip-brackets on both sides of the screen are detachable to allow convenient access to the screws for mounting and servicing. Mounting and dismounting of the projection screen can be done without service flap.
